PROFESSIONAL SUMMARY

Facilities and MEP professional with 15+ years of experience across electrical maintenance, facility operations, commercial mall development, retail fit-out supervision, and technical consultancy. Experienced in reviewing MEP drawings and specifications, monitoring installation and testing, coordinating with tenants, contractors, consultants and owners, and supporting compliance with Civil Defense requirements. Managed a 25-person facilities team at Course 10 Mall and delivered a water-supply route alternative with an estimated cost reduction from approximately EGP 5 million to EGP 750,000, subject to final cost validation.

CORE COMPETENCIES

- Facilities Management & Operations
- MEP Systems Coordination
- Preventive & Corrective Maintenance
- Retail Fit-Out Supervision
- Shop Drawing & Specification Review
- Technical Inspection & Handover
- Civil Defense / Fire & Life Safety Coordination
- HVAC Systems
- Electrical Systems
- Firefighting Systems
- Fire Alarm Systems
- Plumbing & Drainage
- Pumps & Pump Control
- Maintenance Contracts & Budgets
- Contractor / Tenant / Consultant Coordination
- HSE Procedures & Work Permits
- Utility Consumption Monitoring
- Technical Snag Lists & Reporting
- AutoCAD
- Microsoft Excel, Word & PowerPoint

PROFESSIONAL EXPERIENCE

Egyptian International Architecture Group (Mega Plan) *Oct 2024 – Present*

Facilities / MEP Department Manager – Consultant-side Technical Oversight

- Provide technical oversight of MEP works and retail fit-outs across four commercial malls: East Plaza Mall, Kayan Plaza Mall, Souq El Madina Mall, and 60 Feddan Club Mall.
- Review drawings, designs, specifications and shop drawings; monitor execution, inspections, testing and handover, and prepare technical snag lists.
- Follow up on approximately 11 tenant fit-outs across the four malls through periodic site reviews, checking individual work items step by step.
- Coordinate technical compliance with applicable Civil Defense requirements, including fire protection and fire alarm-related requirements.
- Work with project stakeholders to resolve technical issues and support safe, compliant completion of works.

Al-Amal for Development and Trade *Jan 2017 – Sep 2024*

Facilities Manager / Head of Facilities Department

- Supported Course 10 Mall in 10th of Ramadan City (approximately 22,000 m²) from construction through fit-out and operational handover, covering structural/architectural interfaces, landscape and hardscape, façades, and MEP infrastructure.
- Managed post-handover facility operations and maintenance, including preventive and corrective maintenance, maintenance contracts, operating budgets, and electricity/water consumption monitoring.
- Managed a 25-person facilities team comprising 3 engineers, 4 supervisors, and technicians/workers.
- Supervised tenant fit-outs and coordinated with retail brands and tenants including Vodafone, Seif Pharmacy, Smart Furniture, National Bank of Egypt, Adidas, Active, 2B, Tseppas, and others.
- Reviewed shop drawings and material submissions, followed MEP testing and handover, and coordinated with tenants, contractors and consultants.
- Reviewed maintenance contractor performance using response and repair speed, complaint handling, and preventive-maintenance adequacy; oversaw a monthly maintenance contract of approximately EGP 150,000.
- Created an Excel and paper-based store inventory process to track incoming, outgoing and returned items and improve stock control.

Hyper One Trading Company *Nov 2016 – Jan 2017*

Facilities Management Supervisor

- Supervised facility maintenance activities and site inspections.
- Followed up on safety compliance and vendor/service-provider coordination.

- Supported maintenance-contract and cost monitoring.

Engineering Contracting Office – Ramadan & Hussein Abu Hamid, Assiut *Nov 2014 – Aug 2016*

Electrical / Equipment Maintenance Engineer

- Handled maintenance activities for asphalt mixers, stone crushers and road-paving equipment.
- Supported equipment installation and maintenance, troubleshooting, and operational readiness.

International Contracting Company (Muntaser) *Nov 2010 – Oct 2014*

Electrical Maintenance Engineer

- Maintained public lighting networks in new cities and communities, including Sheikh Zayed, 15 May, El Shorouk and New Taiba City in Luxor.
- Supervised selected lighting-network and feeder execution activities and supported inspections and maintenance.

EDUCATION

Bachelor of Industrial Education, Electronics Technology Department — Helwan University | 2009
Graduation project: Design of a Miniature Laboratory System for Voltage and Current Measurements | Grade: Excellent

PROFESSIONAL DEVELOPMENT

- Applied Supervisory Professional Diploma — AUC School of Continuing Education | Nov 2022 – Nov 2023 | 210 contact hours
- Project Management Foundations — LinkedIn Learning | Dec 2023
